

## Comera Life Sciences Announces Collaboration with Quality Chemical Laboratories to Secure Proprietary Supply of SQore Excipients

July 20, 2023

***– Ownership of proprietary sourcing for U.S.-manufactured lead SQore excipients allows for full control over supply chain and greater flexibility to support product development needs –***

WOBURN, Mass., July 20, 2023 (GLOBE NEWSWIRE) -- [Comera Life Sciences Holdings, Inc. \(Nasdaq: CMRA\)](#) ("Comera" or the "Company"), a life sciences company developing a new generation of biologic medicines to improve patient access, safety, and convenience, today announced a partnership with Quality Chemical Laboratories, Inc. (QCL) to manufacture one of Comera's lead SQore™ excipients, as part of a broader strategy to secure the GMP manufacturing and supply chain of key proprietary technology owned by the Company.

"In addition to the substantial investment we have made in the science behind our proprietary SQore platform, we are building value by expanding our SQore patent portfolio and ensuring supply and access to our lead SQore excipients," said Jeffrey Hackman, Chairman and Chief Executive Officer of Comera. "Today's announcement is an important step towards our strategic goal of securing the manufacturing and supply chain for our technology."

"QCL is pleased to leverage its strong synthetic and analytical chemistry expertise to advance Comera's technology platform," said Dr. Yousry Sayed, President and CEO of QCL. "There has been a growing trend towards bringing back manufacturing of critical, high-value technologies such as pharmaceuticals to the United States to reduce supply risk, ensure high quality production and improve regulatory compliance. We are pleased to work with Comera on this important initiative to help them secure the supply, distribution and quality of their key technologies."

Comera is helping companies transform their intravenously administered (IV) biologics into patient delivered subcutaneous (SQ) formulations using a validated and de-risked approach that dramatically reduces time to clinic and commercialization. Comera's proprietary SQore platform integrates computational modeling, a robust library of excipients, and advanced formulation engineering to expedite the development of patient-preferred biotherapeutic formulations, while fostering novel intellectual property creation.

### About Comera Life Sciences

Leading a compassionate new era in medicine, Comera Life Sciences is applying a deep knowledge of formulation science and technology to transform essential biologic medicines from intravenous (IV) to subcutaneous (SQ) forms. The goal of this approach is to provide patients with the freedom of self-injectable care, reduce institutional dependency and to put patients at the center of their treatment regimen.

### Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the federal securities laws. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this document, including, but not limited to: the Company's ability to maintain the listing of its securities on the Nasdaq Capital Market; the price of the Company's securities may be volatile due to a variety of factors, including changes in the competitive and highly regulated industries in which the Company plans to operate, variations in performance across competitors, changes in laws and regulations affecting the Company's business and changes in the capital structure; the Company's ability to execute on its business plans, forecasts, and other expectations and identify and realize additional opportunities; the risk of economic downturns and the possibility of rapid change in the highly competitive industry in which the Company operates; the risk that the Company and its current and future collaborators are unable to successfully develop and commercialize the Company's products or services, or experience significant delays in doing so; the risk that we will be unable to continue to attract and retain third-party collaborators, including collaboration partners and licensors; the risk that the Company may never achieve or sustain profitability; the risk that the Company will need to raise additional capital to execute its business plan, which may not be available on acceptable terms or at all; the risk that the Company experiences difficulties in managing its growth and expanding operations; the risk that third-party suppliers and manufacturers are not able to fully and timely meet their obligations; the risk that the Company is unable to secure or protect its intellectual property; the risk that the Company is unable to secure regulatory approval for its product candidates; the effect of any resurgence of the COVID-19 pandemic or other public health emergencies on the Company's business; general economic conditions; and other risks and uncertainties described in Item 1A of Part I of the Company's Annual Report on Form 10-K filed with the SEC on March 17, 2023 under "Risk Factors" and in other filings that have been made or will be made with the SEC. The foregoing list of factors is not exhaustive. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Comera assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Comera can give no assurance that it will achieve its expectations.
