

## Comera Life Sciences Significantly Expands Intellectual Property Portfolio Strengthening the Proprietary SQore™ Platform

August 8, 2023

WOBURN, Mass., Aug. 08, 2023 (GLOBE NEWSWIRE) -- [Comera Life Sciences Holdings, Inc. \(Nasdaq: CMRA\)](#), a life sciences company developing a new generation of biologic medicines to improve patient access, safety, and convenience, today announced a significant expansion of its SQore™ patent portfolio with the issuance of four new patents and two new notices of allowance. The six new patents, three issued in the United States and three covering Canada, Korea and India expand the number of proprietary viscosity reducing excipients in Comera's SQore platform and significantly broaden claims covered by previously issued patents.

"We have expanded and strengthened our robust global patent portfolio this year, and these new patents underscore our commitment to innovation and enhance our partnership and pipeline strategy," said Jeffrey Hackman, Chairman and Chief Executive Officer of Comera. "This accomplishment reiterates our position as the trusted partner for developing subcutaneous product formulations which have the potential to improve patient access and ease of use for important biologics. With more than 20 patents and significant continued activity around our partnerships and pipeline, we believe Comera is strongly positioned to transform the delivery of injectable biologics."

Comera is using its proprietary formulation platform, SQore, to enable subcutaneous (SQ) delivery of intravenous (IV) drugs such as monoclonal antibodies (mAbs). The addition of excipients, such as caffeine, interrupts intermolecular interactions to reduce viscosity of high concentration mAb formulations.

The new issuances and allowed patents broaden the number of SQore excipients covered for viscosity reduction claims, including exclusive rights to certain formulations containing combinations of its proprietary excipients. Additionally, the new patents significantly expand previously issued patent claims to provide exclusive rights on magnitude of viscosity reduction versus control, concentration of protein and quantity of excipient in formulations. Today's announcement also marks the first issued patent in India, validating Comera's efforts to ensure a broad geographic scope for SQore patent protection.

### About Comera Life Sciences

Leading a compassionate new era in medicine, Comera Life Sciences is applying a deep knowledge of formulation science and technology to transform essential biologic medicines from intravenous (IV) to subcutaneous (SQ) forms. The goal of this approach is to provide patients with the freedom of self-injectable care, reduce institutional dependency and to put patients at the center of their treatment regimen.

### Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the federal securities laws. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this document, including, but not limited to: the Company's ability to maintain the listing of its securities on the Nasdaq Capital Market; the price of the Company's securities may be volatile due to a variety of factors, including changes in the competitive and highly regulated industries in which the Company plans to operate, variations in performance across competitors, changes in laws and regulations affecting the Company's business and changes in the capital structure; the Company's ability to execute on its business plans, forecasts, and other expectations and identify and realize additional opportunities; the risk of economic downturns and the possibility of rapid change in the highly competitive industry in which the Company operates; the risk that the Company and its current and future collaborators are unable to successfully develop and commercialize the Company's products or services, or experience significant delays in doing so; the risk that we will be unable to continue to attract and retain third-party collaborators, including collaboration partners and licensors; the risk that the Company may never achieve or sustain profitability; the risk that the Company will need to raise additional capital to execute its business plan, which may not be available on acceptable terms or at all; the risk that the Company experiences difficulties in managing its growth and expanding operations; the risk that third-party suppliers and manufacturers are not able to fully and timely meet their obligations; the risk that the Company is unable to secure or protect its intellectual property; the risk that the Company is unable to secure regulatory approval for its product candidates; the effect of any resurgence of the COVID-19 pandemic or other public health emergencies on the Company's business; general economic conditions; and other risks and uncertainties described in Item 1A of Part I of the Company's Annual Report on Form 10-K filed with the SEC on March 17, 2023 under "Risk Factors" and in other filings that have been made or will be made with the SEC. The foregoing list of factors is not exhaustive. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Comera assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Comera can give no assurance that it will achieve its expectations.
